Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

- 1. (Previously Presented) An electronic savings system, the system comprising:
 - a. a portable electronic device, having unique personal identification data stored therein; and
 - b. a means of transmitting the unique personal identification data to a store; wherein when the store receives the unique personal identification data, a store discount is applied to a plurality of specially marked, store discounted items.
- 2. (Previously Presented) The system of claim 1, further comprising a simulated credit card swipe coupled to the portable electronic device.
- (Previously presented) The system of claim 1, wherein the portable electronic device comprises a cellular telephone, and the unique personal identification data comprises a user's telephone number.
- (Previously presented) The system of claim 3 wherein the universal savings system comprises a discount card associated with a particular store.
- 5. (Previously canceled)

- 6. (Previously Presented) A method of acquiring customer data, the method comprising the steps of:
 - a. providing a portable electronic device having unique personal identification data stored within, wherein the portable electronic device comprises a means of transmitting the unique personal identification data;
 - b. providing a store register capable of receiving the unique personal identification data;
 - c. transmitting the unique personal identification data from the portable electronic device to the store register; and
 - d. applying a store discount to the price of all specially marked, store
 discounted items upon receipt of the unique personal identification data.
- 7. (Original) The method of claim 6, further comprising the steps of:
 - a. providing a central computer;
 - b. transmitting the unique personal identification data to the central computer; and
 - c. cross referencing the unique personal identification data with a stored data profile.
- 8. (Original) The method of claim 7, further comprising the steps of:
 - a. transmitting product data from the store register to the central computer;
 and
 - storing the product data with a cross reference to the unique personal identification data.

- (Original) The method of claim 7, wherein the product data is used for inventory management.
- 10.(Previously Presented) A method of acquiring customer data, the method comprising the steps of:
 - a. providing a store register capable having unique store identification data
 stored within, wherein the store register comprises a means of transmitting
 the unique store identification data;
 - b. providing a personal electronic device capable of receiving the unique store identification data;
 - transmitting the unique store identification data from the store register to
 the portable electronic device; and
 - d. applying a store discount to the price of all specially marked, store discounted items upon successful transmission of the unique store identification data.
- 11.(Original) The method of claim 10, further comprising the steps of:
 - a. transmitting the unique store identification data from the personal electronic device to a remote computer;
 - transmitting customer data from the personal electronic device to a remote computer; and
 - c. transmitting product data from the personal electronic device to a remote computer.

- 12.(Original) The method of claim 11, further comprising the steps of:
 - a. processing the unique store identification data, the customer data and the product data; and
 - producing a report with the unique store identification data, the customer data and the product data listed in an organized format.
- 13.(Original) The method of claim 12, wherein the personal electronic device comprises a cellular telephone.
- 14. (Original) The method of claim 13, wherein the store register is linked to at least one other store register via a network.
- 15. (Original) The method of claim 14, further comprising the step of distributing advertising literature based upon the report.
- 16. (Original) The method of claim 14, further comprising the step of using the report for inventory management.
